

Technical Documentation Update - December to January 12th

To help you find new content that our documentation team creates, this email update walks you through our newest documentation and videos. Here's what the documentation teams have been up to:

New Cookbook Recipes

Cookbook Recipes are now located on our new [FortiGate Cookbook website](#). Please rate our Cookbook recipes, and remember to share!

The image shows a screenshot of the FortiGate Cookbook website. On the left, there is a large black arrow pointing right with the text "Rate" and five yellow stars. Below it, another large black arrow points right with the text "Share" and social media icons for Facebook, Twitter, Google+, and LinkedIn. The main content area displays a recipe titled "Remote Internet browsing using a VPN" with a 5-star rating and a "Rate" button. The recipe includes a diagram showing a remote user connecting to a FortiGate device via a VPN tunnel. The right sidebar contains sections for "Recipes by FortiGate version" (5.2, 5.3, 5.4), "Follow Us" (social media icons), "Tags" (authentication, dynamic VPN, SSL VPN, etc.), and "Categories" (Networks).

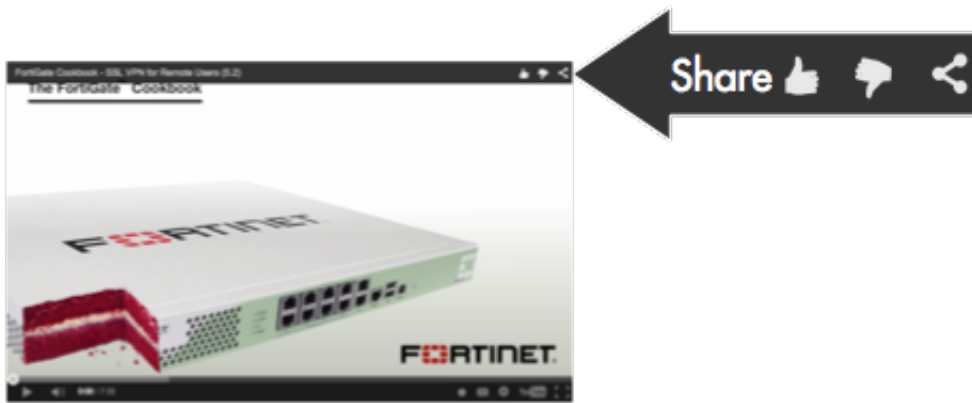

See our featured [Remote Internet browsing using a VPN](#) recipe to learn how to bypass Internet access restrictions using IPsec and SSL VPN tunnels.

Thanks to our first guest contributor, Mathieu Nantel, for his recent [Hub-and-spoke VPN using quick mode selectors](#) advanced article!

- ***New feature*** [FortiCloud-managed WiFi network](#)
- ***New feature*** [FSSO in polling mode](#) (or see [Video](#))
- [Remote Internet browsing using a VPN](#)
- [Hub-and-spoke VPN using quick mode selectors](#)
- [Port pairing in Transparent mode](#)
- [Limited access administrator accounts](#)
- [VDOM configuration](#)
- [Web rating overrides](#)
- [Web filtering using quotas](#)
- [FortiGuard DDNS](#)
- [Protect a web server with DMZ](#)

New Videos

Our video teams have been busy working over the holidays to bring you new video content in 2015. If you find a video useful, give it a thumbs up to help us evaluate which topics are most popular with viewers and feel free to share it.

One of our favorite videos is the [FSSO in polling mode](#) Cookbook video that features the new 5.2.2 FSSO wizard that allows you to configure your FSSO group directly in the security policy.

Cookbook Videos

- FSSO in polling mode using Windows AD 5.2 ([YouTube](#) | [Fortinet Video Library](#))
- High Availability [HA] 5.2 ([YouTube](#) | [Fortinet Video Library](#))
- IPsec VPN with FortiClient 5.2 ([YouTube](#) | [Fortinet Video Library](#))
- Explicit Proxy ([YouTube](#) | [Fortinet Video Library](#))
- Guest Wifi Accounts ([YouTube](#) | [Fortinet Video Library](#))

Latest Videos

- One Arm Sniffer ([YouTube](#) | [Fortinet Video Library](#))
- Introduction to FortiView ([YouTube](#) | [Fortinet Video Library](#))

What new or updated documents have been recently uploaded?

Check out the following product documentation for any changes:

FortiADC

- [FortiADC E Series Help \(HTML\)](#)
- [FortiADC Handbook for E Series \(PDF\)](#)

- [Managing a FortiSwitch unit with a FortiGate](#)
- [FortiSwitch OS 3.0.1 Release Notes](#)

Diagnose Wiki Update

- The Wiki Diagnose site (wiki.diagnose.fortinet.com) is available only to members who create an account.
- Please note that the Diagnose website does **not** use LDAP credentials.
- To create an account:
 1. Go to the [Diagnose website](#) and read the accountability statement.
 2. Click **Create account** in the upper right corner of the Wiki Diagnose website.

How can you help?

Our documentation teams continuously strive to offer innovative documentation. You can help by providing input:

- If you find an error, email techdocs@fortinet.com or fill out a [Report an Issue](#) form.
- Encourage customers to check out our [Survey Poll](#) and [Suggest a Cookbook Topic](#).
